

The Federal Communications Commission

Dear The Federal Communications Commission,

Dear FCC Representative

I don't want to pay exorbitant rates for long-distance service!

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. So, low-volume (primarily residential) customers would bear the same USF burden as high-volume residential or business customers.

I use my wireless phone for safety, security and convenience--never for "gabbing." I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Thank You!!

Linda Adams ladams@dslxtreme.com Inglewood, CA

In addition, I oppose the idea of BPL, or Broadband over Power Lines, because of the havoc it plays with two-way communications used by Law Enforcement, Firemen, and even CB users and HAM radio operators. NOT GOOD!!

Sincerely,

Linda Adams
